

INTERNET & EMAIL USAGE

POLICY

Rationale:

The internet provides students with unprecedented opportunities to obtain information, engage in discussion, and liaise with individuals, organisation and groups world-wide so as to increase skills, knowledge and abilities.

Aims:

To improve student learning outcomes by increasing access to world-wide information.

To develop skills in discriminate and effective internet usage.

To understand personal safety around the use of all web-based communication.

Implementation:

1. Our school actively supports access by students to the widest variety of information resources available, accompanied by the development of the skills necessary to filter, analyse, interpret and evaluate information encountered.
2. All students and staff at our school will have Department of Education and Training (DET) censorship filtered internet and email access. All students and staff will have their own password protected internet account and log on. Such access is a privilege that infers responsibility, and not simply a right to be expected.
3. The Information Communication Technology (ICT) Team will liaise with staff and the technical support technician to manage all email access, maintenance of the school's web site, web filters, and all other issues related to internet access by students.
4. The school undertakes to ensure that information published on the Internet by students or the school is of a high standard, and meets legal requirements and standards of general practice within the community in relation to copyright, safety and decency.
5. Students email access will be through a class mailbox under teacher supervision.
6. All email accounts will be password protected and users will be responsible for clearing their mailboxes regularly.
7. Guidelines on access rights will be defined for different user levels. Restricted access shall be available to guest users for specific purposes only.
8. All students shall be responsible for notifying their teacher of any inappropriate material so that access can be blocked.
9. All staff shall be responsible for notifying the coordinator of any inappropriate material so that access can be blocked.
10. Consequences of publishing, accessing or failing to notify the Technicians of inappropriate material may include the removal of access rights, to be reinstated at the discretion of the teacher.
11. Signed parent and student consent (see below) is required to be completed in order to gain access to the internet, or to publish work, photos or videos on the internet.
12. Privacy of students, parents, staff and other users must be recognised and respected at all times. When identifying students, only the student's first name and last initial will be used.
13. Teachers shall be responsible for making sure all work is screened for accuracy, appropriateness, grammar, spelling prior to publishing.
